**FOR LOVERS OF LIVING. EXPRESS MÖBEL.**

BECAUSE THERE IS NO OTHER: ONE

A unique life needs unique furniture. And that's the best way to describe our furniture product line ONE.

We know that life is constantly changing: jobs, relationships, children – some things you can influence, others most certainly not. But with ONE, we offer you a furniture system which you really can adapt to all of life's situations and changes. We all know that the needs and tastes of a small family are different from those of a single person household. And a first student flat looks nothing like that of a couple who have just moved in together.

Whatever is happening in your life right now, whatever your plans and tastes: ONE allows you to design a home which is as beautiful and unique as you are.

TOGETHER AT LAST,  
*WE*  
*belong together!*

So you've finally found your dream apartment. All that remains is to fit two households into one. And that's no problem with a spacious wardrobe from ONE. With a graphite finish, it looks so good you'll wonder why you waited so long.

The chests of drawers are fitted with height adjustable feet. So they stand up straight even on uneven floors.

Naturally, you and your life are absolutely unique. But it doesn't hurt to get a different perspective – or even three – with this clever corner wardrobe from ONE. The fold-out mirrored doors let you quickly check that everything is perfectly in place. Clothes. Storage space. And ingenious ideas. This is a wardrobe you'll want to hug!

# Hustle, bustle and order.

Who says that children always spread chaos? We disagree. As long as you have a wardrobe from ONE. Inside, it has an enormous amount of storage space for all the things a family needs. And its modern sliding doors ensure there is always plenty of space to play, chase and explore the world.

It's time to play!  
Our high quality furniture

OUR PROMISE:

# Made in Germany

Before we do anything, our first thought is about people like you who want to furnish their homes according to their tastes and imagination. How can we improve our products? What should we leave the way it is? And what are the trends for the coming years? This constant questioning on our part is precisely why we have developed so many innovative functions

and design ideas. All of which, of course, are carried out with technical perfection and meet the highest standards of quality. That's what "Made in Germany" means to us. As a manufacturer with a long tradition, that label represents inspiration, excellence and a sense of obligation. So that even more people can set up house however they want.

We take our environmental responsibilities very seriously, which is precisely why we are FSC certified.

„The FSC® trademark on wood and wood products is recognised as a seal of transparency and credibility around the world. It guarantees fair and responsible treatment of the people and the natural world involved in its production. The Forest Stewardship Council aims to preserve forests for future generations.“ The FSC actively involves leading human rights and environmental organisations such as WWF and Greenpeace as well as trade unions and representatives of indigenous peoples in order to protect shared interests. Certification of forestry operations takes place in accordance with standards developed by the FSC that are valid worldwide. They are supplemented by a large number of indicators at the national level.

The PEFC label is based on strict guidelines for sustainable forestry management. If a product bears the PEFC label it means that the entire product chain – from the raw material to the finished product – has been certified and inspected by independent auditors.

The Blue Angel

Express furniture bears the „Blue Angel“ seal for products made from wood and wood materials with exceptionally low emissions. It certifies that we implement strong measures to protect your health and the environment and use resources efficiently.

The Golden M
